

Emphasizing the Meaning of a Song

One day, the respected Comrade **Kim Jong Un** talked with the officials about *We Sing of the Party*.

He said:

The song is indeed a good song that reflects the people's trust in the Workers' Party of Korea. Officials should understand the deep meaning of this song our people love and enjoy singing. As its lyrics read, our people earnestly sing that the Party is the only embrace in the world which glorifies their life.

The official were reminded of the words that sing of the people's reverence for and praise of the Party, their mother, that glorifies their life with devotion, and realized once again why the people love and enjoy singing the song.

Kim Jong Un continued:

Officials should always cherish the meaning of the song and do their best to ensure, by fulfilling their duty, that the Party and the people are united with tender feeling and the people trust and follow the Party as they do their mothers.

Hearing his instructions on their mission and duty, the officials made up their mind to make selfless, devoted efforts for the wellbeing of the people.
