

The Basic Key to Working Miracles

The following happened over ten years ago when the respected Comrade **Kim Jong Un** visited the construction site of the Wisong Scientists Residential District.

He looked round different places to learn about the project. Looking at the mushrooming houses and public buildings, he expressed great satisfaction over the fact that an eye-opening speed of construction, the Korean speed, was being created through a collective emulation drive.

The accompanying officials were deeply moved as he spoke highly of the builders who were faithfully supporting the intention of the Workers' Party of Korea, demonstrating the indomitable spirit and collective might even in the face of difficulties.

Feasting his eyes on the construction site which resounds with agitation activities by means of loudspeaker vans, with red flags fluttering and appealing visual aids set up everywhere, he said the atmosphere was very good, and underscored the need to raise a strong wind of ideological campaign and information and motivation activities, bearing in mind that the greatest potentials for creation and innovations and the basic key to working miracles lie in giving the fullest play to the spiritual strength of the masses.

The officials clearly realized that nothing would be impossible when they hold fast to the Juche theory of giving precedence to ideology and give the fullest play to the spiritual strength of the masses.
